|           |   |   |
|-----------|---|---|
| EDUCATION | <b>Massachusetts Institute of Technology</b><br>M. Eng. in Computer Science – 5.0/5.0<br>B.S. in Physics and Computer Science – 4.7/5.0   | May 2020<br>June 2019   |
| WORK      | <b>Kensho</b> – <i>Part-Time Software Engineer</i> <ul style="list-style-type: none"><li>Laid the foundation for estimating database query costs under Kensho’s GraphQL compiler using database statistics</li></ul><br><b>Project Invent</b> – <i>Winter Extern</i> <ul style="list-style-type: none"><li>Worked at an early-stage non-profit to bring invention education to teachers and students across the country</li><li>Contributed to program design, strategy meetings, and fundraising development</li></ul><br><b>Indeed</b> – <i>Software Engineer Intern</i> <ul style="list-style-type: none"><li>Created a predictive data-driven decision-making system to increase SEO acquisition for job result pages with Java, Hadoop, Pig Latin, and Git</li></ul>   | Spring ‘19<br><br>Jan ‘19<br><br>Summer ‘16   |
| RESEARCH  | <b>Generative Models for Stellar Spectra</b> – <i>Researcher, MIT</i> <ul style="list-style-type: none"><li>Implemented and experimented with variational autoencoders and flow-based networks as stellar spectra models for my Master’s thesis</li></ul><br><b>Bayesian Modeling of Supernovae</b> – <i>Researcher, Imperial College London</i> <ul style="list-style-type: none"><li>Developed and tested a hierarchical Bayesian model for selection effects in supernovae lightcurves to better infer parameters about our universe</li></ul><br><b>NuSTAR X-Ray Analysis of the Galactic Center</b> – <i>Researcher, MIT</i> <ul style="list-style-type: none"><li>Analyzed high energy spectra near the Galactic Center to characterize and constrain dark matter candidates with Python, Sherpa, and HEASoft software</li></ul><br><b>MIT Office of Open Learning</b> – <i>Data Science Researcher</i> <ul style="list-style-type: none"><li>Prepared a student feedback tool for instructors to experiment on how various feedback impacts student behavior with Flask and Google BigQuery</li></ul><br><b>Mathworks at Texas State University</b> – <i>Research Assistant</i> <ul style="list-style-type: none"><li>Characterized negativity in hypergraph structure to enhance our understanding of deficiencies in neural / social / magnetic networks</li></ul> | Mar ‘19 – May ‘20<br><br>Summer ‘18<br><br>Sep ‘17 – Jun ‘18<br><br>Jun ‘17 – Jan ‘18<br><br>Summer ‘14 |
| PROJECTS  | <b>ProSet</b> <a href="http://proset.evantey.me">proset.evantey.me</a> <ul style="list-style-type: none"><li>Created a websocket-based multiplayer version of the card game ProSet with Mongo, Express, React, and Node</li></ul><br><b>Educational Telescope with VR</b> <ul style="list-style-type: none"><li>Building a real 10” f/5 Dobsonian telescope with additional sensors and a screen to emulate telescope usage for use on cloudy nights</li></ul><br><b>Consensus</b> <ul style="list-style-type: none"><li>Used the design process to lead a team of six in creating a live classroom tool that reduces confusion between students and teachers</li><li>Interviewed teachers, then prototyped and tested several features before developing a simple webapp to track users, questions, and confusion in the classroom</li></ul><br><b>Align</b> <ul style="list-style-type: none"><li>Constructed a device to detect bad posture and give haptic feedback with flex sensors and an Arduino in a team of six</li></ul><br><b>Concrete Convolutional Neural Network Cryptosystem</b> <ul style="list-style-type: none"><li>Replicated and extended Google Brain’s paper <i>Learning to Protect Communications with Adversarial Neural Cryptography</i> with a team of three</li></ul>   | Summer ‘20<br><br>Spring ‘18<br><br>Spring ‘16<br><br>Spring ‘16<br><br>Fall ‘16                        |

|          |   |                   |
|----------|---|-------------------|
|          | <b>3D Scanner</b> <ul style="list-style-type: none"> <li>Built a 3D laser scanner to generate and display a point cloud from an object using an FPGA</li> <li>Rendered and allowed interaction with the point cloud through VGA output</li> </ul>   | Fall '16          |
|          | <b>LASA UIL Study Site</b> <ul style="list-style-type: none"> <li>Developed a quizzing website to help novice CS students learn general programming principles</li> <li>Parsed PDFs of computer science tests to a question database using MongoDB, Javascript, NodeJS, Jade, and JQuery</li> </ul>   | Fall '14          |
| TEACHING | <b>MIT Undergraduate Mathematics for Computer Science – Graduate TA</b> <ul style="list-style-type: none"> <li>Ran weekly office hours and interactive recitations on discrete mathematics</li> </ul>   | Sep '19 – May '20 |
|          | <b>MIT Spokes – Organizer &amp; Participant</b> <ul style="list-style-type: none"> <li>Biked across the country and taught STEM workshops at local schools / libraries with seven other MIT students</li> </ul>   | Summer '19        |
|          | <b>Educational Studies Program – Admin</b> <ul style="list-style-type: none"> <li>Organized programs for middle/high schoolers to take classes from MIT students</li> <li>Directed Splash (over 2000 students, 500 teachers, 40 admins)</li> <li>Taught classes on astronomy, statistical mechanics, algorithms, and more</li> </ul>  | Feb '16 – Jun '19 |
|          | <b>Undergraduate Math Department – Peer Tutor</b> <ul style="list-style-type: none"> <li>Tutored MIT undergraduates in single- and multi-variable calculus, differential equations, and linear algebra for 4 hours a week</li> </ul>  | Feb '16 – Dec '17 |
|          | <b>MIT Undergraduate Electricity &amp; Magnetism – Undergraduate TA</b> <ul style="list-style-type: none"> <li>Coached MIT undergraduates through physics problems for 5 hours a week</li> </ul>  | Spring '17        |
|          | <b>Mathworks at Texas State University – Honors Summer Math Camp Counselor</b> <ul style="list-style-type: none"> <li>Counseled a group of four high school students in Combinatorics and Real Analysis</li> <li>Ran additional review sessions and assisted a Mathematica class</li> <li>Worked with 15 other counselors to maintain a nurturing camp environment</li> </ul> | Summer '15        |
|          | <b>AP Computer Science – TA</b> <ul style="list-style-type: none"> <li>Assisted AP Computer Science students during class by creating worksheets and helping students learn how to debug programs</li> </ul>  | Aug '13 – May '14 |
|          | <b>Scratch Camp – Cofounder</b> <ul style="list-style-type: none"> <li>Designed and ran a camp to stimulate computer science interest in Pearce Middle School students</li> </ul>   | Spring '13        |
| AWARDS   | <b>Larry G. Benedict Leadership Award – MIT Awards Convocation Awardee</b> <ul style="list-style-type: none"> <li>Recognized for showing dedication for empowering my fellow students to develop as leaders</li> </ul>  | Spring '19        |
|          | <b>8th Int'l Olympiad on Astronomy and Astrophysics – Honorable Mention</b> <ul style="list-style-type: none"> <li>Represented the USA in theory, observation, and data analysis exams in Romania</li> </ul>  | Aug '14           |
| SKILLS   | <b>Hard:</b> Python, Jupyter, Numpy, Pandas, Tensorflow, Git, Javascript, Node, Java, Linux<br><b>Soft:</b> Leadership, Data Science, Design Thinking, Rapid Prototyping<br><b>Interests:</b> Stargazing, Education, Soccer, Food   |                   |
